-

8,000 lm - 68 W

3F Led Technology

Endless light

Our industrial Led Range is equipped with the new 3F LED technology which, thanks to specially developed sources, Heavy-duty, ensures a service life of over 50,000 hours, at the end of which at least 90% of the LEDs still provides 80% of the initial issue (50,000 L80/B10).

You won't believe your wallet

- Thanks to the 3F Filippi LED Technology, you can save fi no to 60% compared to traditional sources.
- You can replace your old appliances keeping the lights and the electrical system, but reducing consumption.
- The reduction of maintenance significantly lowers operating costs.

Luminous flux for:

Narrow version

1,595 lm - 14.5 W

3,185 lm - 28 W

3,983 lm - 34 W

Wide version

3,098 lm - 29.5 W

6,207 lm - 56 W

7,733 lm - 68 W

A (not) dazzling beauty

The new screen photo-etched to Our industrial Led Range cancels all the glare and gives a uniform bright enviable.

In addition, the cleanliness and elegance of the lines make Our industrial Led Range a unit that will fit in any environment.

Eco-logic

Our industrial Led Range is designed according to the principles of the Eco Design and shines for:

- Production with the energy obtained from solar panels and assembly with the philosophy of "zero kilometer"
- Limited use of different materials between them, so as to facilitate the steps of assembling, installation and recycling
- Green recyclable packaging

About us

3F Filippi S.p.A. has been working in the lighting industry for more than 60 years, with extensive experience in designing and manufacturing technical and efficient lighting systems. Its products are fully designed and manufactured exclusively in its plants close to Bologna (Italy) and proudly carry "Made in Italy" to more than fifty countries, through its sales network which consists of regional and overseas offices. 3F Filippi is ISO 9001-certified also for the lighting design and works alongside the best lighting designers to provide its customers with a quality of light in line with the latest regulations, assuring performance results especially in the industrial, commercial and service sectors, providing customised solutions.
